Lidl Stiftung & Co. KG  
Germany-.

Dear customer,

In reference to the claim referred "Glass Foreign Body found in Tuna".

Code of claim: L370RGA 5H ES03/20G.35GUM

Brand: Nixe

Reference: PS-2021-0689

Salica's production plant does not have glass in any of its processing steps however we have reviewed all records related with this code finding no foreign matter issues.

Although we do not have complaint exhibit, photo review shows a piece of material similar than the one used for product plastic sleeve.

Attached you will find the traceability report and evaluation of counter sample of claim code. Also attached you will find the Procedure "PEC 06 In case of breakage of glass hard plastic" and the registers "Daily inspection of possible glass or hard plastic breakage".

Please do not hesitate to contact us in order to solve any additional doubt that may arise regarding this issue.

Best regards,

Lucciola López P.
